

## Amazon Spheres: A nature lover's workspace

An award-winning project with outstanding design and innovation, The Amazon Spheres feature a multi-level, glass-enclosed biophilic workspace.

Illuminated inside and out by BEGA luminaires, The Spheres make a strong positive impact on employee health and well-being by inspiring connection to nature. LIMBURG pendant luminaires make the upper deck feel like a whimsical rainforest above the clouds.

Compact floodlights highlight the thousands of plants and trees that grow inside. Pole-top and recessed wall luminaires illuminate the exterior, providing safe, comfortable lighting on the pathways and courtyards.

## Celebrating spheres everyday

A perfectly shaped sphere is one of the most important elements of design. As a fundamental geometric shape, the form is pure and timeless. We've expanded our sphere portfolio to include pendant, ceiling and wall, and semi-recessed ceiling and wall luminaires. These captivating luminaires complement any design aesthetic, making them well suited for a multitude of spaces.
